Subject: status update...

Hi Becky,

Hope your vacation was wonderful!! (You went out of country, right?) Welcome Back!!

Monty and I touched base last Wed (8/5), and I mentioned to him then that I hoped to review the ALC calculations early this week. However, on Friday (8/7), I was pulled into the response effort for the Gold King mine spill to the Animas and San Juan Rivers (CO/NM), and today is my first day back to my regular duties. I'm going through emails today and prioritizing my work. I apologize for the delay and know you need ALC input as soon as possible. Would it be okay if I get back to you by COB Monday (8/17) on the ALC calculations? (This would give you ~1.5 weeks to process any input I may have before your 8/26 public meeting.)

Also, we have an OWRB/EPA recurring call scheduled for next Wed. (8/19). Perhaps we can use the recurring call time to discuss whatever ALC input I plan to share with you on Monday, as well as the status of the SWS proposal. (I may not have a lot of new input on the SWS proposal since I haven't seen any draft language yet, but would love to hear an update.)

Thanks!

Melinda
